APPROPRIATE USE AND SECURITY OF CONFIDENTIAL AND SENSITIVE INFORMATION

Similar to Banner, HRFE allows you to access confidential and sensitive information. Guidelines have been created to help you manage your responsibility.

You are responsible for any activity that occurs using your logon
- Do not share your passwords or store them in an unsecured manner.
- Do not leave your workstation unattended while logged on to administrative information systems.

You have access to very sensitive personal information
- Do not share confidential and sensitive information with anyone, including colleagues, unless there is a business reason.
- Retrieve printed reports quickly, and do not leave the reports lying around in plain view.
- Secure reports containing confidential and sensitive information (e.g., FERPA, EEO, or HIPAA protected data).
- Shred the documents in a timely manner when disposing of reports containing confidential or sensitive information.

Any violation could subject you to disciplinary action.

Introduction

Assumptions
This guide assumes that you have completed the *HR Front End Overview and Navigation* online course. This prerequisite helps acquaint you with the general functionality of and navigation in the HR Front End. Material presented in the *HR Front End Overview and Navigation* course is not repeated in this guide.

What Is an Employee Data Change?

**Employee Data Changes** are changes made to the Employee General Information in the HR Front End Application. Examples of these type(s) of changes are:

- Name Changes
- Social Security Number Corrections
- Chart of Accounts Changes
- Employee Class Changes
- Visa Changes
